
Alabama 10 Health / Physical Education

FREE PREVIEW

Full-Year Teacher Planner, Blank Editable Planner & School-Submission Binder

This preview shows the real structure and a genuine sample of the completed planner. The full product contains 9 units, 36 weekly plans and 180 daily plans, plus blank editable versions of every form.

State	Alabama
Grade	10 (High)
Subject	Health / Physical Education
Course category	Health and Physical Education
Standards family	Health Education
Framework	2019 Alabama Course of Study: Health Education and 2019 Alabama Course of Study: Physical Education
Issuing agency	Alabama State Department of Education
Scope	36 instructional weeks · 180 instructional days · 9 units

This is a statewide standards index, not a local course catalog. Course names, grade placement, electives, and graduation sequences vary by district.

What you get

Folder	Contents
01 START HERE	Read-me, contents, printing and digital instructions, standards verification guide, this preview
02 FILLED FULL YEAR	Completed planner in colour and ink-friendly PDF, plus editable DOCX
03 BLANK EDITABLE	Blank planner in colour, ink-friendly and fillable PDF, plus editable DOCX
04 ASSESSMENTS AND DATA	Baseline observation, quarterly rubrics, anecdotal forms, portfolio checklist
05 SCHOOL SUBMISSION	Submission covers, alignment summary, evidence checklist, observation, reflection, signature page
06 LICENSE AND CREDITS	Terms of use, credits and licences, copyright notice

The pages that follow are reproduced **exactly** as they appear in the full completed planner.

Week 9 — Peers, Media, Technology and Policy

Unit 3: Influence: Who Is Telling You What Is Normal · Month 3 · Quarter 1 · Semester 1 · Instructional Days 41–45

Essential question	Which of these is designed to change you?
Standards	How Peers Influence Behaviour → HE.2.1b Anchor Standard 2: Students will analyze the influence of family, peers, culture, media, technology, and other factors on health / Analyzing Influences — Examine how peers influence healthy and unhealthy behaviors. The Effect of Media on Health → HE.2.1c Anchor Standard 2: Students will analyze the influence of family, peers, culture, media, technology, and other factors on health / Analyzing Influences — Critique the effect of media on personal and family health. Public Health Policy and Regulation → HE.2.1d Anchor Standard 2: Students will analyze the influence of family, peers, culture, media, technology, and other factors on health / Analyzing Influences — Cite evidence of how public health policies and government regulations can influence health promotion and disease prevention. The Pros and Cons of Technology → HE.2.2 Anchor Standard 2: Students will analyze the influence of family, peers, culture, media, technology, and other factors on health / Analyzing Influences — Describe the pros and cons of the use of technology as it affects personal, family, and community health.
Learning target	"I can analyse peer, media, policy and technology influence and say which is deliberate."
Local dates	_____ (enter your school dates)

Measurable objectives

- Students will analyze how peers influence healthy and unhealthy behaviors.
- Students will analyze the effect of media on personal and family health.
- Students will analyze how public health policies and government regulations can influence health promotion and disease prevention.
- Students will analyze the pros and cons of technology on personal and family health.

Success criteria (student-friendly)

- "I explain how peer influence actually operates."
- "I analyse media effect as a designed mechanism."
- "I analyse policy and technology on both sides."

Academic vocabulary

peer influence, conformity, media, marketing, targeting, public health policy, regulation, technology, trade-off

Materials and technology

- Supplied media examples chosen by the teacher
- Notebooks

Differentiation and supports

Support area	This week's plan
Special education / IEP	Reduce group size; pair visual cue cards with all verbal directions; allow gesture or picture response in place of speech; pre-teach the week's target in a 1:1 warm-up.
Section 504	Provide the child's documented accommodations throughout; permit movement breaks and alternative seating at any point in the sequence.
Multilingual learners	Introduce each vocabulary word with an object or image; accept home-language responses; send the vocabulary list home where a translation is available; pair with a peer who shares the home language.
Advanced / extension	Ask the learner to teach the skill to a peer, extend the task, or record a demonstration for the class reference wall.
Intervention / reteach	Reteach the target in a short small group using the same materials; split the day's check for understanding into two smaller steps.
Enrichment	Extend into an open-ended centre or project connected to the essential question.

Assessment and evidence

Student analyses all four influences and identifies deliberate design.

Family communication

Ask your child which influence on this list is designed on purpose.

Day 41 — How Peer Influence Actually Works

Week 9, Day 1 • Unit 3 • Standards: HE.2.1b, HE.2.1c, HE.2.1d, HE.2.2

Focus	HE.2.1b.
Learning target	"I can analyse peer, media, policy and technology influence and say which is deliberate."
Vocabulary in use	peer influence, conformity, media, marketing, targeting, public health policy, regulation, technology, trade-off
Local date	_____

Learning sequence

TEACHER NOTE: general analysis. No student is asked about their own friends, and no student in this room is described as an influence on anyone. Connect: 'peer pressure' is usually taught wrong. Teach: direct pressure - somebody telling you to - is the rarest and weakest form. The powerful forms are MODELLING (you do what you see) and PERCEIVED NORMS (you do what you think others do), and both operate without anybody saying anything. A course that only teaches refusal for direct pressure has prepared students for the uncommon case. Try: shared analysis of the three forms. Apply: students explain all three and rank them by strength. Reflect: most peer influence is silent.

Check for understanding

Student distinguishes direct pressure, modelling and perceived norms.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Day 42 — Media as a Designed Mechanism

Week 9, Day 2 · Unit 3 · Standards: HE.2.1b, HE.2.1c, HE.2.1d, HE.2.2

Focus	HE.2.1c.
Learning target	"I can analyse peer, media, policy and technology influence and say which is deliberate."
Vocabulary in use	peer influence, conformity, media, marketing, targeting, public health policy, regulation, technology, trade-off
Local date	_____

Learning sequence

TEACHER NOTE: analyse mechanisms and supplied examples; do not characterise any named outlet or platform, and name no brand. Connect: the standard says EFFECT ON PERSONAL AND FAMILY HEALTH. Teach: media influences by what it shows as normal, what it shows as desirable, what it omits, and how precisely it can target a message - and unlike family or community, MUCH OF IT IS DESIGNED TO CHANGE BEHAVIOUR, which is the difference that matters. Try: shared analysis of supplied examples. Apply: students analyse two examples by mechanism. Reflect: intent does not make it stronger, but it does make it aimed.

Check for understanding

Student analyses media influence by mechanism.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Day 43 — Policy and Regulation

Week 9, Day 3 · Unit 3 · Standards: HE.2.1b, HE.2.1c, HE.2.1d, HE.2.2

Focus	HE.2.1d.
Learning target	"I can analyse peer, media, policy and technology influence and say which is deliberate."
Vocabulary in use	peer influence, conformity, media, marketing, targeting, public health policy, regulation, technology, trade-off
Local date	_____

Learning sequence

TEACHER NOTE: policy is analysed as a mechanism with evidence, not debated as politics. No student is asked their political view and no position is assessed. Connect: some influences are laws. Teach: public health policy acts by making things easier, harder, cheaper, dearer, required or forbidden - and its evidence is measurable, which is what lets it be analysed rather than merely argued about. Try: shared analysis of supplied policy examples and their measured effects. Apply: students analyse two policies by mechanism and evidence. Reflect: policy changes the default, and the default is what most people take.

Check for understanding

Student analyses policy mechanisms and their evidence.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Day 44 — Technology, Both Sides

Week 9, Day 4 · Unit 3 · Standards: HE.2.1b, HE.2.1c, HE.2.1d, HE.2.2

Focus	HE.2.2.
Learning target	"I can analyse peer, media, policy and technology influence and say which is deliberate."
Vocabulary in use	peer influence, conformity, media, marketing, targeting, public health policy, regulation, technology, trade-off
Local date	_____

Learning sequence

Connect: the standard says PROS AND CONS, so both are required. Teach: technology extends access to information, monitoring and care, and it also carries costs - displaced activity, disrupted sleep, unreliable information, and data about health that goes somewhere. An analysis giving only one side does not meet the standard. Try: shared listing of both. Apply: students analyse three technologies on both sides. Reflect: no student is asked what they use or how much.

Check for understanding

Student analyses technology's benefits and costs together.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Day 45 — Four Influences, and Which Are Aimed

Week 9, Day 5 · Unit 3 · Standards: HE.2.1b, HE.2.1c, HE.2.1d, HE.2.2

Focus	Assessment.
Learning target	"I can analyse peer, media, policy and technology influence and say which is deliberate."
Vocabulary in use	peer influence, conformity, media, marketing, targeting, public health policy, regulation, technology, trade-off
Local date	_____

Learning sequence

Connect: four standards, one question. Teach: the product analyses all four influences and marks which are DESIGNED to change behaviour - the distinction that organises the whole week. Try: shared drafting. Apply: students write and file it. Reflect: knowing an influence is aimed at you changes how you read it.

Check for understanding

Student analyses four influences and identifies deliberate design.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Important before you buy

- This is a **digital download**. Nothing is shipped.
- The planner is **calendar-neutral**: Month 1–9, Week 1–36, Day 1–180, so it fits any school calendar. You add your own dates.
- Standards were transcribed from the official source.
- Not affiliated with or endorsed by Alabama State Department of Education, any district, school, assessment provider or Teachers Pay Teachers.
- No approval, compliance, rating or evaluation outcome is guaranteed.

This is a statewide standards index, not a local course catalog. Course names, grade placement, electives, and graduation sequences vary by district.

Source citation

Alabama State Department of Education. 2019 Alabama Course of Study: Health Education and 2019 Alabama Course of Study: Physical Education. THIS ENTRY IS TWO COURSES, because the workbook row is. HEALTH EDUCATION is the 2019 Alabama Course of Study: Health Education's single high school course, 'a required, one-half-credit high school course' which the document says 'it is recommended that students take in Grade 10' -- so GRADE 10 IS ALABAMA'S OWN RECOMMENDED PLACEMENT for it, and the 55 items are the same ones the Grade 9 row carries because there is only one such course. ADVANCED KINESIOLOGY is from the 2019 Alabama Course of Study: Physical Education, pages 64-67, and it is an ELECTIVE rather than the required course: a Grade 10 student who took Beginning Kinesiology in Grade 9 may not repeat it, because the document states that 'students may not repeat any course standards in physical education, including electives' and that Beginning Kinesiology 'is the prerequisite for all physical education elective courses'. Five other electives exist -- Adventure and Cooperative Activities, Life Sports, Strength and Conditioning, Sports Officiating and Varsity Athletics -- and a department teaching one of those needs its standards rather than these. Every PE code carries a LEVEL: Level 1 is the required minimum and Level 2 is extension, in the document's own words, and both are registered.
