# North Carolina 12 Music / Band / Choir / Orchestra

**FREE PREVIEW**

Full-Year Teacher Planner, Blank Editable Planner & School-Submission Binder

This preview shows the real structure and a genuine sample of the completed planner. The full product contains 9 units, 36 weekly plans and 180 daily plans, plus blank editable versions of every form.

|                  |                                                           |
|------------------|-----------------------------------------------------------|
| State            | North Carolina                                            |
| Grade            | 12 (High)                                                 |
| Subject          | Music / Band / Choir / Orchestra                          |
| Course category  | Fine Arts                                                 |
| Standards family | Fine Arts                                                 |
| Framework        | North Carolina Standard Course of Study, Arts Education   |
| Issuing agency   | North Carolina Department of Public Instruction           |
| Scope            | 36 instructional weeks · 180 instructional days · 9 units |

This is a statewide standards index, not a local course catalog. Course names, grade placement, electives, and graduation sequences vary by district.

## What you get

| Folder                  | Contents                                                                                          |
|-------------------------|---------------------------------------------------------------------------------------------------|
| 01 START HERE           | Read-me, contents, printing and digital instructions, standards verification guide, this preview  |
| 02 FILLED FULL YEAR     | Completed planner in colour and ink-friendly PDF, plus editable DOCX                              |
| 03 BLANK EDITABLE       | Blank planner in colour, ink-friendly and fillable PDF, plus editable DOCX                        |
| 04 ASSESSMENTS AND DATA | Baseline observation, quarterly rubrics, anecdotal forms, portfolio checklist                     |
| 05 SCHOOL SUBMISSION    | Submission covers, alignment summary, evidence checklist, observation, reflection, signature page |
| 06 LICENSE AND CREDITS  | Terms of use, credits and licences, copyright notice                                              |

The pages that follow are reproduced **exactly** as they appear in the full completed planner.

## Week 9 — Changing One Element At A Time

### Unit 3: Testing Interpretations · Month 3 · Quarter 1 · Semester 1 · Instructional Days 41–45

|                    |                                                                                                                                  |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Essential question | What happens to the message if you change one thing?                                                                             |
| Standards          | <b>Performing / Analyze</b> -> <b>AD.CN.1.2, AD.CN.1.3, AD.CN.2.1, AD.CN.2.2</b> — 4 standards; full text in the standards table |
| Learning target    | "I can test how changing an element changes the message."                                                                        |
| Local dates        | _____ (enter your school dates)                                                                                                  |

#### Measurable objectives

- Students will test how changing musical elements affect the artistic message, and predict how changes inform audience response.

#### Success criteria (student-friendly)

- "I change one element at a time."
- "I describe the effect precisely."
- "I predict an audience response and check it."

#### Academic vocabulary

tempo, dynamic, articulation, timbre, balance, phrasing, artistic message

#### Materials and technology

- The ensemble's current repertoire
- Notebooks

#### Differentiation and supports

| Support area            | This week's plan                                                                                                                                                                                       |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Special education / IEP | Reduce group size; pair visual cue cards with all verbal directions; allow gesture or picture response in place of speech; pre-teach the week's target in a 1:1 warm-up.                               |
| Section 504             | Provide the child's documented accommodations throughout; permit movement breaks and alternative seating at any point in the sequence.                                                                 |
| Multilingual learners   | Introduce each vocabulary word with an object or image; accept home-language responses; send the vocabulary list home where a translation is available; pair with a peer who shares the home language. |
| Advanced / extension    | Ask the learner to teach the skill to a peer, extend the task, or record a demonstration for the class reference wall.                                                                                 |
| Intervention / reteach  | Reteach the target in a short small group using the same materials; split the day's check for understanding into two smaller steps.                                                                    |
| Enrichment              | Extend into an open-ended centre or project connected to the essential question.                                                                                                                       |

**Assessment and evidence**

An element varied and its effect on the message described.

**Family communication**

Ask your child what changes when a piece is played slower.

## Day 41 — One Element At A Time

Week 9, Day 1 · Unit 3 · Standards: AD.CN.1.2, AD.CN.1.3, AD.CN.2.1, AD.CN.2.2

|                   |                                                                           |
|-------------------|---------------------------------------------------------------------------|
| Focus             | The method.                                                               |
| Learning target   | "I can test how changing an element changes the message."                 |
| Vocabulary in use | tempo, dynamic, articulation, timbre, balance, phrasing, artistic message |
| Local date        | _____                                                                     |

### Learning sequence

Teach: that testing means varying ONE element and holding the rest -- tempo, dynamic shape, articulation, balance, timbre, rubato -- because changing several tells you nothing about which did what, and that this is the same discipline as any experiment. Try: shared demonstration on a short passage. Apply: the ensemble runs a passage twice with one element changed. Reflect: what exactly changed in the effect?

### Check for understanding

Student varies a single element and isolates its effect.

### Differentiation in the moment

| If the learner...  | Then...                                                                   |
|--------------------|---------------------------------------------------------------------------|
| needs more support | Model the step again with guided support, then fade to a gesture cue.     |
| is ready for more  | Invite the learner to demonstrate for a peer or add a second example.     |
| is dysregulated    | Pause instruction, move to co-regulation, and return to the target later. |

### Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

### Teacher reflection (fictional example)

*Fictional Example — Customize and Verify Before School Submission.*

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

## Day 42 — Describing The Effect Precisely

Week 9, Day 2 · Unit 3 · Standards: AD.CN.1.2, AD.CN.1.3, AD.CN.2.1, AD.CN.2.2

|                   |                                                                           |
|-------------------|---------------------------------------------------------------------------|
| Focus             | Language.                                                                 |
| Learning target   | "I can test how changing an element changes the message."                 |
| Vocabulary in use | tempo, dynamic, articulation, timbre, balance, phrasing, artistic message |
| Local date        | _____                                                                     |

### Learning sequence

Connect: 'better' and 'nicer' are useless. Teach: the vocabulary that actually distinguishes -- urgent, settled, hesitant, driving, spacious, brittle, warm -- and that the discipline is to name the effect and then say what in the sound produced it. Try: shared description of two supplied renderings. Apply: students describe the effect of their variation and its cause. Reflect: could somebody else reproduce the effect from your description?

### Check for understanding

Student describes an effect and identifies its cause in the sound.

### Differentiation in the moment

| If the learner...  | Then...                                                                   |
|--------------------|---------------------------------------------------------------------------|
| needs more support | Model the step again with guided support, then fade to a gesture cue.     |
| is ready for more  | Invite the learner to demonstrate for a peer or add a second example.     |
| is dysregulated    | Pause instruction, move to co-regulation, and return to the target later. |

### Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

### Teacher reflection (fictional example)

*Fictional Example — Customize and Verify Before School Submission.*

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

## Day 43 — The Artistic Message

Week 9, Day 3 · Unit 3 · Standards: AD.CN.1.2, AD.CN.1.3, AD.CN.2.1, AD.CN.2.2

|                   |                                                                           |
|-------------------|---------------------------------------------------------------------------|
| Focus             | The standard's own term.                                                  |
| Learning target   | "I can test how changing an element changes the message."                 |
| Vocabulary in use | tempo, dynamic, articulation, timbre, balance, phrasing, artistic message |
| Local date        | _____                                                                     |

### Learning sequence

TEACHER NOTE: 'MESSAGE' HERE MEANS WHAT THE PERFORMANCE COMMUNICATES MUSICALLY. No political, religious or ideological reading is required of anybody, and no student is asked what a piece means to them personally. Teach: that the message is what the performance is trying to do to a listener -- and that the same notes carry very different messages under different interpretive choices, which is precisely why the choices matter. Try: shared identification. Apply: students state the message of two renderings. Reflect: which rendering matched your Week 2 intent?

### Check for understanding

Student states how a rendering's artistic message differs from another's.

### Differentiation in the moment

| If the learner...  | Then...                                                                   |
|--------------------|---------------------------------------------------------------------------|
| needs more support | Model the step again with guided support, then fade to a gesture cue.     |
| is ready for more  | Invite the learner to demonstrate for a peer or add a second example.     |
| is dysregulated    | Pause instruction, move to co-regulation, and return to the target later. |

### Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

### Teacher reflection (fictional example)

*Fictional Example — Customize and Verify Before School Submission.*

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

## Day 44 — Predicting Audience Response

Week 9, Day 4 • Unit 3 • Standards: AD.CN.1.2, AD.CN.1.3, AD.CN.2.1, AD.CN.2.2

|                   |                                                                           |
|-------------------|---------------------------------------------------------------------------|
| Focus             | The standard's second half.                                               |
| Learning target   | "I can test how changing an element changes the message."                 |
| Vocabulary in use | tempo, dynamic, articulation, timbre, balance, phrasing, artistic message |
| Local date        | _____                                                                     |

### Learning sequence

Teach: that this is a prediction and therefore checkable, that predicting before playing and then asking a listener is the whole exercise, and that being wrong is informative rather than embarrassing. Try: shared prediction. Apply: students predict, then test on a listener who has not heard the prediction. Reflect: were you right?

### Check for understanding

Student predicts an audience response and tests it.

### Differentiation in the moment

| If the learner...  | Then...                                                                   |
|--------------------|---------------------------------------------------------------------------|
| needs more support | Model the step again with guided support, then fade to a gesture cue.     |
| is ready for more  | Invite the learner to demonstrate for a peer or add a second example.     |
| is dysregulated    | Pause instruction, move to co-regulation, and return to the target later. |

### Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

### Teacher reflection (fictional example)

*Fictional Example — Customize and Verify Before School Submission.*

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

## Day 45 — When The Prediction Fails

Week 9, Day 5 • Unit 3 • Standards: AD.CN.1.2, AD.CN.1.3, AD.CN.2.1, AD.CN.2.2

|                   |                                                                           |
|-------------------|---------------------------------------------------------------------------|
| Focus             | Honesty.                                                                  |
| Learning target   | "I can test how changing an element changes the message."                 |
| Vocabulary in use | tempo, dynamic, articulation, timbre, balance, phrasing, artistic message |
| Local date        | _____                                                                     |

### Learning sequence

Connect: predictions fail. Teach: the reasons -- the change was too small to hear, the listener attended to something else, the effect depends on context you removed, or the prediction was simply wrong -- and that diagnosing which is more useful than trying again louder. Try: shared diagnosis. Apply: students diagnose a failed prediction. Reflect: what would you test next?

### Check for understanding

Student diagnoses why a prediction about listener response failed.

### Differentiation in the moment

| If the learner...  | Then...                                                                   |
|--------------------|---------------------------------------------------------------------------|
| needs more support | Model the step again with guided support, then fade to a gesture cue.     |
| is ready for more  | Invite the learner to demonstrate for a peer or add a second example.     |
| is dysregulated    | Pause instruction, move to co-regulation, and return to the target later. |

### Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

### Teacher reflection (fictional example)

*Fictional Example — Customize and Verify Before School Submission.*

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

## Important before you buy

---

- This is a **digital download**. Nothing is shipped.
- The planner is **calendar-neutral**: Month 1–9, Week 1–36, Day 1–180, so it fits any school calendar. You add your own dates.
- Standards were transcribed from the official source.
- Not affiliated with or endorsed by North Carolina Department of Public Instruction, any district, school, assessment provider or Teachers Pay Teachers.
- No approval, compliance, rating or evaluation outcome is guaranteed.

**This is a statewide standards index, not a local course catalog. Course names, grade placement, electives, and graduation sequences vary by district.**

# Terms of Use, Privacy and Copyright
