Week 9 — Appropriation

Unit 3: Using What Already Exists · Month 3 · Quarter 1 · Semester 1 · Instructional Days 41–45

Essential question	When is using someone else's image part of the art, and when is it just taking it?
Standards	Appropriation, Fair Use and Copyright -> VA.10.CO1.8 Visual Arts: CO — 1. Combine and explain of places visual documentation of which people places and times in which experience art people make and community experience art or design in contextual a community (e.g. visual and contextual research, sketches, photographs). and 2. Access, evaluate and external use internal and external as resources, such as cultural experiences, and social knowledge, research experiences, interests, and works to research and exemplary works.
Learning target	"I can explain what appropriation is and how it differs from copying."
Local dates	_____ (enter your school dates)

Measurable objectives

- Students will define appropriation and distinguish it from copying.
- Students will explain what transformation means in this context.

Success criteria (student-friendly)

- "I define appropriation in my own words."
- "I distinguish quoting, referencing and copying."
- "I explain why transformation matters."

Academic vocabulary

appropriation, transformation, reference, quotation, source

Materials and technology

- Sketchbooks
- Pencils
- Pupils' own earlier work as examples
- Paper for source lists
- Class devices where available

Differentiation and supports

Support area	This week's plan
Special education / IEP	Reduce group size; pair visual cue cards with all verbal directions; allow gesture or picture response in place of speech; pre-teach the week's target in a 1:1 warm-up.
Section 504	Provide the child's documented accommodations throughout; permit movement breaks and alternative seating at any point in the sequence.
Multilingual learners	Introduce each vocabulary word with an object or image; accept home-language responses; send the vocabulary list home where a translation is available; pair with a peer who shares the home language.

Support area	This week's plan
Advanced / extension	Ask the learner to teach the skill to a peer, extend the task, or record a demonstration for the class reference wall.
Intervention / reteach	Reteach the target in a short small group using the same materials; split the day's check for understanding into two smaller steps.
Enrichment	Extend into an open-ended centre or project connected to the essential question.

Assessment and evidence

A written distinction between quoting, referencing and copying, with examples.

Family communication

Ask your child the difference between referencing a work and copying it.

Day 41 — What Appropriation Actually Means

Week 9, Day 1 · Unit 3 · Standards: VA.10.CO1.8

Focus	The term.
Learning target	"I can explain what appropriation is and how it differs from copying."
Vocabulary in use	appropriation, transformation, reference
Local date	_____

Learning sequence

TEACHER NOTE: THIS UNIT IS TAUGHT WITHOUT REPRODUCING ANY COPYRIGHTED WORK. The examples are pupils' own work and yours; where an outside work is needed, use one your school may lawfully use. A unit about lawful use that modelled unlawful use would teach the opposite of what it says. Connect: Week 6's chosen images. Teach: appropriation as the deliberate taking of existing material INTO a new work where the taking is part of the meaning. Try: shared examination of a pupil-made example. Apply: pupils define it in their own words.

Check for understanding

Student defines appropriation in their own words.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Day 42 — Quoting, Referencing, Copying

Week 9, Day 2 · Unit 3 · Standards: VA.10.CO1.8

Focus	Three different acts.
Learning target	"I can explain what appropriation is and how it differs from copying."
Vocabulary in use	appropriation, transformation, reference
Local date	_____

Learning sequence

Connect: the definition. Teach: quoting (a fragment used and marked as such), referencing (an echo the viewer may recognise), and copying (reproduction) - three different acts with three different obligations. Try: shared sorting of teacher-made examples into the three. Apply: pupils write one example of each using their own work. Reflect: NO PUPIL COPIES AN EXISTING ARTWORK IN THIS COURSE.

Check for understanding

Student sorts examples correctly into quoting, referencing and copying.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.

Day 43 — Transformation and Why It Matters

Week 9, Day 3 · Unit 3 · Standards: VA.10.CO1.8

Focus	The central test.
Learning target	"I can explain what appropriation is and how it differs from copying."
Vocabulary in use	appropriation, transformation, reference
Local date	_____

Learning sequence

Connect: the three acts. Teach: transformation as the question 'does this do something the original did not?' - new purpose, new meaning, new audience - and that changing the colours is not transformation. Try: shared judgement on described cases. Apply: pupils judge two cases and justify. Reflect: transformation is a matter of degree and reasonable people disagree, which is why Week 10 goes to the actual test.

Check for understanding

Student judges whether a described use is transformative and justifies it.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Day 44 — When Appropriation Is the Point

Week 9, Day 4 · Unit 3 · Standards: VA.10.CO1.8

Focus	Legitimate practice.
Learning target	"I can explain what appropriation is and how it differs from copying."
Vocabulary in use	appropriation, transformation, reference
Local date	_____

Learning sequence

Connect: transformation. Teach: that some work depends on the viewer recognising what was taken - commentary, parody, critique - and that in those cases hiding the source would destroy the work. Try: shared discussion of what such a work needs from its audience. Apply: pupils describe a hypothetical work of this kind. Reflect: the practice is legitimate; the obligations do not disappear.

Check for understanding

Student describes a use where recognition of the source is essential.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Day 45 — Naming What You Used

Week 9, Day 5 · Unit 3 · Standards: VA.10.CO1.8

Focus	The habit.
Learning target	"I can explain what appropriation is and how it differs from copying."
Vocabulary in use	appropriation, transformation, reference
Local date	_____

Learning sequence

Connect: legitimate practice. Teach: recording every source at the moment of use - what it was, where it came from, what permission applies - because reconstructing it later is unreliable and usually wrong. Try: shared source-record format. Apply: pupils start a source record for their own work. Reflect: this record is required for everything made from here to Week 36.

Check for understanding

Student starts a source record with the required fields.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.
