Week 9 — An Object or a Place That Matters

Unit 3: An Idea Worth Making · Month 3 · Quarter 1 · Semester 1 · Instructional Days 41–45

Essential question	What thing or place actually changes how people live?
Standards	Creating / Investigate (3) -> VA.1.CR1.HS1 Visual Arts: CR — 1. Identify and elaborate on themes in the local and global community that could be explored in art making. 2. Use contextual research and direct observation to generate ideas and to produce a work of art that demonstrates understanding of artistic techniques and organizational structures. 3. Individually and/or collaboratively design an object or artwork that is based on a need, theme, or aesthetics that demonstrates developing technical skill.
Learning target	"I can identify an object or place that empowers or enhances life and begin an artistic idea from it."
Local dates	_____ (enter your school dates)

Measurable objectives

- Students will develop an artistic idea that illustrates a societal, cultural or historical object or place which empowers or enhances life.

Success criteria (student-friendly)

- "I identify a societal, cultural or historical object or place."
- "I explain how it empowers or enhances life."
- "I develop an artistic idea from it."

Academic vocabulary

societal, cultural, historical, empower, enhance, subject, significance, development

Materials and technology

- Sketchbooks or folded paper
- Notebooks
- Research sources the school may lawfully use

Differentiation and supports

Support area	This week's plan
Special education / IEP	Reduce group size; pair visual cue cards with all verbal directions; allow gesture or picture response in place of speech; pre-teach the week's target in a 1:1 warm-up.
Section 504	Provide the child's documented accommodations throughout; permit movement breaks and alternative seating at any point in the sequence.
Multilingual learners	Introduce each vocabulary word with an object or image; accept home-language responses; send the vocabulary list home where a translation is available; pair with a peer who shares the home language.
Advanced / extension	Ask the learner to teach the skill to a peer, extend the task, or record a demonstration for the class reference wall.

Support area	This week's plan
Intervention / reteach	Reteach the target in a short small group using the same materials; split the day's check for understanding into two smaller steps.
Enrichment	Extend into an open-ended centre or project connected to the essential question.

Assessment and evidence

A subject chosen, justified against the standard, and developed.

Family communication

Ask your child what object or place they chose and why.

Day 41 — Reading the Standard Carefully

Week 9, Day 1 · Unit 3 · Standards: VA.1.CR1.HS1

Focus	What it actually asks.
Learning target	"I can identify an object or place that empowers or enhances life and begin an artistic idea from it."
Vocabulary in use	societal, cultural, historical, empower, enhance, subject, significance, development
Local date	_____

Learning sequence

TEACHER NOTE: THE COURSE OF STUDY NAMES NO OBJECT, PLACE, CULTURE, TRADITION, PERIOD OR SITE HERE, AND NEITHER DOES THIS PLAN. Students choose their own subject against the standard's criteria. NO STUDENT IS ASKED TO DRAW ON THEIR OWN CULTURE, FAMILY, BELIEFS OR CIRCUMSTANCES, or to speak for any group; an observed, invented or researched subject meets the standard equally, and that alternative is offered to the whole class rather than to individuals. Connect: the making skills. Teach: unpacking the standard clause by clause - a societal, cultural OR historical object or place, which EMPOWERS OR ENHANCES life - and that the last clause is the real filter. Try: shared testing of four candidate subjects against it. Apply: students state the criteria in their own words. Reflect: most subjects fail the last clause, which is what makes it a useful one.

Check for understanding

Student states the standard's criteria for a subject.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Day 42 — Things That Enhance Life

Week 9, Day 2 · Unit 3 · Standards: VA.1.CR1.HS1

Focus	Objects.
Learning target	"I can identify an object or place that empowers or enhances life and begin an artistic idea from it."
Vocabulary in use	societal, cultural, historical, empower, enhance, subject, significance, development
Local date	_____

Learning sequence

Connect: criteria. Teach: OBJECTS that empower or enhance life - tools, instruments, vessels, devices, everyday things designed to make something possible - and how to look at one as an artist rather than a user. Try: shared analysis of an object present in the room. Apply: students identify three candidate objects. Reflect: the object does not have to be important to anyone but the people it helps.

Check for understanding

Student identifies candidate objects against the criteria.

Day 43 — Places That Enhance Life

Week 9, Day 3 · Unit 3 · Standards: VA.1.CR1.HS1

Focus	Places.
Learning target	"I can identify an object or place that empowers or enhances life and begin an artistic idea from it."
Vocabulary in use	societal, cultural, historical, empower, enhance, subject, significance, development
Local date	_____

Learning sequence

Connect: objects. Teach: PLACES that empower or enhance life - places that gather people, shelter them, let them do something they otherwise could not - and how a place is drawn: what to include, what to leave out. NO PARTICULAR PLACE IS PRESCRIBED and no student is asked about where they live. Try: shared analysis of a place type. Apply: students identify three candidate places. Reflect: a place is a subject with a use, which is what the standard is asking about.

Check for understanding

Student identifies candidate places against the criteria.

Differentiation in the moment

Day 44 — Choosing and Justifying

Week 9, Day 4 · Unit 3 · Standards: VA.1.CR1.HS1

Focus	The decision.
Learning target	"I can identify an object or place that empowers or enhances life and begin an artistic idea from it."
Vocabulary in use	societal, cultural, historical, empower, enhance, subject, significance, development
Local date	_____

Learning sequence

Connect: candidates. Teach: choosing one subject and writing the justification against the standard's own words, because a subject a student cannot justify is one they will abandon in week three. Try: shared justification. Apply: students choose their subject and justify it. Reflect: write the justification down; you will need it in Unit 4 when the work gets hard.

Check for understanding

Student chooses and justifies a subject.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.

Day 45 — First Development

Week 9, Day 5 • Unit 3 • Standards: VA.1.CR1.HS1

Focus	The standard's verb DEVELOP.
Learning target	"I can identify an object or place that empowers or enhances life and begin an artistic idea from it."
Vocabulary in use	societal, cultural, historical, empower, enhance, subject, significance, development
Local date	_____

Learning sequence

Connect: the subject. Teach: that DEVELOP means the idea changes under work - so the first studies are exploratory rather than final, and Week 2's three approaches are all available. Try: shared start. Apply: students produce first development studies. Reflect: the first version of an idea is almost never the one that gets made.

Check for understanding

Student produces first development studies.

Differentiation in the moment
