

Tennessee 7 Physical Education

FREE PREVIEW

Full-Year Teacher Planner, Blank Editable Planner & School-Submission Binder

This preview shows the real structure and a genuine sample of the completed planner. The full product contains 9 units, 36 weekly plans and 180 daily plans, plus blank editable versions of every form.

State	Tennessee
Grade	7 (Middle)
Subject	Physical Education
Course category	Required / State or Local
Standards family	Physical Education
Framework	Tennessee Physical Education Standards (revised July 2024)
Issuing agency	Tennessee Department of Education
Scope	36 instructional weeks · 180 instructional days · 9 units

This is a statewide standards index, not a local course catalog. Course names, grade placement, electives, and graduation sequences vary by district.

What you get

Folder	Contents
01 START HERE	Read-me, contents, printing and digital instructions, standards verification guide, this preview
02 FILLED FULL YEAR	Completed planner in colour and ink-friendly PDF, plus editable DOCX
03 BLANK EDITABLE	Blank planner in colour, ink-friendly and fillable PDF, plus editable DOCX
04 ASSESSMENTS AND DATA	Baseline observation, quarterly rubrics, anecdotal forms, portfolio checklist
05 SCHOOL SUBMISSION	Submission covers, alignment summary, evidence checklist, observation, reflection, signature page
06 LICENSE AND CREDITS	Terms of use, credits and licences, copyright notice

The pages that follow are reproduced **exactly** as they appear in the full completed planner.

Week 9 — Dribbling Under Pressure

Unit 3: Control Under Pressure · Month 3 · Quarter 1 · Semester 1 · Instructional Days 41–45

Essential question	How do you keep control of something while somebody tries to take it?
Standards	Dribbling Under Defensive Pressure -> MP.7 Movement Patterns — Net & Wall Games: Strikes
Learning target	"I can dribble with either side while changing speed and direction against a defender."
Local dates	_____ (enter your school dates)

Measurable objectives

- Students will dribble with dominant and non-dominant hand, foot or implement while changing speed and/or direction in a variety of tasks with defensive pressure.

Success criteria (student-friendly)

- "I use my non-dominant side."
- "I change speed and direction to beat pressure."
- "I keep my head up."

Academic vocabulary

non-dominant, close control, shielding, change of pace, scanning

Materials and technology

- Balls suited to hand, foot and implement
- Cones or markers
- Bibs
- Space
- Stopwatch or clock

Differentiation and supports

Support area	This week's plan
Special education / IEP	Reduce group size; pair visual cue cards with all verbal directions; allow gesture or picture response in place of speech; pre-teach the week's target in a 1:1 warm-up.
Section 504	Provide the child's documented accommodations throughout; permit movement breaks and alternative seating at any point in the sequence.
Multilingual learners	Introduce each vocabulary word with an object or image; accept home-language responses; send the vocabulary list home where a translation is available; pair with a peer who shares the home language.
Advanced / extension	Ask the learner to teach the skill to a peer, extend the task, or record a demonstration for the class reference wall.

Support area	This week's plan
Intervention / reteach	Reteach the target in a short small group using the same materials; split the day's check for understanding into two smaller steps.
Enrichment	Extend into an open-ended centre or project connected to the essential question.

Assessment and evidence

Dribbling with both sides against active pressure.

Family communication

Ask your child why using the weaker hand or foot matters.

Day 41 — Control Close, Head Up

Week 9, Day 1 · Unit 3 · Standards: MP.7

Focus	The two demands at once.
Learning target	"I can dribble with either side while changing speed and direction against a defender."
Vocabulary in use	non-dominant, close control, shielding
Local date	_____

Learning sequence

Connect: Unit 2's control skills. Teach: keeping the object close enough to protect while looking up to read the situation - the two demands that compete, and the touch weight that satisfies both. Try: shared practice in traffic. Apply: pupils dribble with head up. Reflect: standard MP.7 lists hand, foot OR implement, so the principle is the same across all three.

Check for understanding

Student dribbles with head up in traffic.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Day 42 — The Non-Dominant Side

Week 9, Day 2 · Unit 3 · Standards: MP.7

Focus	The standard's explicit demand.
Learning target	"I can dribble with either side while changing speed and direction against a defender."
Vocabulary in use	non-dominant, close control, shielding
Local date	_____

Learning sequence

Connect: control. Teach: why the standard names the NON-DOMINANT hand or foot - a player who can only go one way is defended by one defender - and that early attempts will look poor, which is the point. Try: shared practice restricted to the weaker side. Apply: pupils dribble non-dominant. Reflect: NOBODY IS COMPARED WITH ANYBODY; the comparison is with your own last attempt.

Check for understanding

Student dribbles under control with the non-dominant side.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Day 43 — Changing Speed to Beat Someone

Week 9, Day 3 · Unit 3 · Standards: MP.7

Focus	Pace as a weapon.
Learning target	"I can dribble with either side while changing speed and direction against a defender."
Vocabulary in use	non-dominant, close control, shielding
Local date	_____

Learning sequence

Connect: two-sided control. Teach: that a change of pace beats a defender more often than raw speed, and how to set it up by slowing first. Try: shared practice against a passive defender. Apply: pupils beat a defender with pace change. Reflect: standard MP.7 says CHANGING SPEED AND/OR DIRECTION.

Check for understanding

Student beats a defender with a change of pace.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Day 44 — Changing Direction and Shielding

Week 9, Day 4 · Unit 3 · Standards: MP.7

Focus	The other half.
Learning target	"I can dribble with either side while changing speed and direction against a defender."
Vocabulary in use	non-dominant, close control, shielding
Local date	_____

Learning sequence

Connect: pace. Teach: cutting, turning, and putting the body between the defender and the object legally - and the difference between shielding and obstructing under the rules. Try: shared practice. Apply: pupils shield and turn. Reflect: Week 4's rules-into-technique link again.

Check for understanding

Student shields legally while turning.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Day 45 — Dribbling in a Variety of Tasks

Week 9, Day 5 · Unit 3 · Standards: MP.7

Focus	Standard MP.7 assessed.
Learning target	"I can dribble with either side while changing speed and direction against a defender."
Vocabulary in use	non-dominant, close control, shielding
Local date	_____

Learning sequence

Connect: the week. Try: rotation of small-sided tasks. Apply: pupils dribble with both sides under pressure. Reflect: standard MP.7 recorded; pressure level is set per pupil so it stays a challenge rather than a defeat.

Check for understanding

Student dribbles with both sides under defensive pressure.

Differentiation in the moment

If the learner...	Then...
needs more support	Model the step again with guided support, then fade to a gesture cue.
is ready for more	Invite the learner to demonstrate for a peer or add a second example.
is dysregulated	Pause instruction, move to co-regulation, and return to the target later.

Closure and reflection

Gather the group. Restate the learning target. Ask one learner to demonstrate. Name one specific thing the group did well, then preview tomorrow.

Teacher reflection (fictional example)

Fictional Example — Customize and Verify Before School Submission.

Most learners met the target. Two needed the visual cue repeated during guided practice; I will pre-teach with them tomorrow. The extension held attention longer than planned, so I shortened closure.

Important before you buy

- This is a **digital download**. Nothing is shipped.
- The planner is **calendar-neutral**: Month 1–9, Week 1–36, Day 1–180, so it fits any school calendar. You add your own dates.
- Standards were transcribed from the official source.
- Not affiliated with or endorsed by Tennessee Department of Education, any district, school, assessment provider or Teachers Pay Teachers.
- No approval, compliance, rating or evaluation outcome is guaranteed.

This is a statewide standards index, not a local course catalog. Course names, grade placement, electives, and graduation sequences vary by district.
